

WHAT OUR CLIENTS HAVE TO SAY...

"I have had nothing but good experiences with Jonathan and his team. They have done several jobs on my properties over the past couple of years and they always do great work at reasonable prices. I appreciate Jonathan's ability to walk me through a job in very precise detail yet deliver the message in laymen's terms. I really appreciate their promptness in completing a job and excellent communication throughout the process. Richard's Heating & Air is my "go to" HVAC company and I feel very comfortable referring them to my friends and colleagues."

*Bill Patton, CPM, Regional Vice President
Fogelman Management Group*

"It has been our pleasure to work with Jonathan Richards and the Richards Heating & Air team from the day their business began operations. From the standpoint of a general contractor, two things are of great importance when working with subcontractors. First is the timely and professional submittal of a competitively priced proposal, and secondly is the skilled and quality execution of the work in the field. Jonathan and his team exceed expectations in both of these areas. I am glad to count Jonathan as a friend and highly endorse his firm for your consideration."

*Dale Sharp, President
Sharp & Robbins Construction, LLC*

COMMERCIAL AND MULTIFAMILY COMFORT SOLUTIONS

Since 1996, Richards Heating & Air has provided quality heating, ventilation, and air conditioning services to the Memphis community and surrounding areas. Locally owned and operated, we offer immediate response and same day service for multifamily and commercial customers including:

- Apartments
- Condominiums
- Duplexes
- Townhomes
- Senior Housing
- Office Buildings

Our skilled professionals are proficient in the latest HVAC technology and specialize in solutions that deliver maximum efficiency, value, and performance. Our multifamily services include:

- New Construction HVAC Design and Install
- Existing HVAC Tenant Improvement and Retrofit
- HVAC Maintenance, Service & Repair
- Indoor Air Quality Products
- Product Recommendations, Sales, and Installation
- Competitive Bids and Free Estimates
- Preferred Customer Maintenance Plans
- 24-hour Emergency Service and Repair
- Comprehensive Preventative Maintenance Programs

We have the knowledge and expertise to design systems for new construction, service and repair existing systems, or replace an entire community's mechanical equipment with minimal disruption. And we'll work with you to determine the system, configuration, and maintenance schedule that are best suited to your property needs.

HEATING, COOLING AND PLUMBING SERVICES

Richards Heating & Air is your specialist for 80-95% AFUE systems, 13-21 SEER 2 stage air conditioners, and 410A Puron applications. We install quality Tempstar®, Carrier and Goodman Heating & Cooling Products and service all brands of air conditioning units with competitive pricing.

Our Air Conditioning and Heating Services Include:

- A/C & Furnace Installation
- A/C & Furnace Service and Repair
- Electronic Air Cleaner Installation
- Humidifier & Dehumidifier Installation
- Heat Pump Installation
- UV Germicidal Lighting
- Air Ductwork Cleaning
- Code Permitting Compliance Availability

We also offer professional plumbing services to complement our comprehensive offering of heating and cooling services.

Our Plumbing Services Include:

- Gas line testing, repair and installation
- Faucet repair and replacement
- Water heater repair and replacement
- Toilet repair and replacement
- Water line repair

We assure you that you'll receive fair and reliable service at an affordable price, and offer customizable preventative maintenance programs to ensure continued optimum performance. Customer satisfaction is guaranteed.

PREVENTATIVE MAINTENANCE

The best way to protect your investment in comfort equipment is through regular professional maintenance and care. Richards Heating & Air offers comprehensive multifamily and commercial preventative maintenance plans for your heating, ventilation, and air conditioning systems which significantly reduce common repairs, extend the units' lifespan, increase the systems' energy efficiency, and improve tenant satisfaction.

Our maintenance programs are a proactive and affordable way to improve system effectiveness and contain repair costs. Through regular scheduled HVAC inspections, we evaluate, clean, and repair any potential system difficulties before they become costly problems.

Our preventive maintenance plans more than pay for themselves through higher energy efficiency, lower utility costs, and fewer system breakdowns. The benefits of a comprehensive maintenance program far outweigh the costs.

Call us today to create a customized preventative maintenance program.
